No need to click picture

## Roses

5

Choose color: 

How the page looks like

- 1) Dropdown-box from where you choose rose color -> change picture  
Create DropDown-box and functionality in JavaScript.
- 2) Dropdown-Box
- 3) Mouse cursor over the picture -> Picture will enlarge SMOOTHLY,  
Functionality made in JavaScript
- 4) If you click picture, it gives notice to list. Also functionality made in JS.
- 5) Moving cursor from picture, picture comes basic size and list of notice  
will be cleared . Both functionalities made in JavaScript.
